

## Car Grille Badges Order now while still available

MG Club of Philadelphia has commissioned a grille badge to commemorate the 2008 joint MGB and MGC National Convention, to be held at Valley Forge in June.

The badge will be about 1/4" thick x 3" round heavyweight alloy, chrome plated with a cloisonné baked and polished enamel five color design: Safety Yellow, Flag Blue, Oxford White, Old Speckled Hen Red, and Black. This Limited Edition 2008 design subtly incorporates the living history of Philadelphia, with the Liberty Bell and George Washington's Valley Forge theme, and an outer ring identifying the NAMGBR and the AMGCR affiliations in chrome letters. Two chrome plated stainless steel machine screws are provided that pass through two outer ring holes, (3 and 9 o'clock), and are then attached to a matching chrome plate behind the grille, secured with chrome lock nuts. Grille Badge is packaged complete with all upgraded chrome hardware, presented in an attractive display box.

This grille badge is a 100 piece limited edition (not numbered) produced by Car Badges Direct.com, based here in Doylestown, PA. Attendance at the Valley Forge Convention is expected to exceed 200 MG motorcars, so they will sell out. Last year's Vintage Triumph Register National Convention, also held at Valley Forge, had 300 cars and the 100 badges almost sold out in the pre-registrations. By the end of the first day they were all gone.

*The badges will be offered to registered MG2008 attendees on a first come/first serve basis, for \$35.00 MSRP- via on line and mail-in registration forms, and this order form if you already registered.*

**This form is for use only if you neglected to order a badge via on-line or mail in registration.**

Why Grille Badges with face mount holes instead of back mounting studs?

The committee had a look at samples and liked this design. Grille Badges are unique in that they look well on award plaques, on automobilia displays, and even as paperweights. With mounting studs on the back it won't lie flat, so we ordered this style. And the chrome plated fasteners are an upgrade that will also enhance the look of the badge. They may even suit the rear boot lid if you're willing to drill!
